

“HighWay”

Short Biography

"HIGHWAY"...or four guys who sold their soul to Rock'n'Roll to make you sing, dance and headbang!

Deriving from their influences of *AC/DC*, *KISS*, *Whitesnake*, *Guns 'N' Roses* or *Aerosmith*, the band delivers up the goods on four albums (available worldwide).

With more than 400 gigs under their belt and sharing the main European stages with bands like *Michael Schenker Group*, *Gothard*, *Jeff Scott Soto*, *Crucified Barbara*, *Nashville Pussy*, *Kissin' Dynamite*, *Electric Mary* and more, France's Hard Rocking stars on the rise are highly motivated to make 2023 the year they welcome everyone to their 'United States of Rock 'N' Roll'!

On December 05th, 2022...the band released their 5th album “The Journey”

An "Unplugged" album mixing new compositions and some of their old classics completely revisited for a real auditory journey, in time and space. A quasi-cinematic work with many facets full of surprises!

Just like their previous opus "IV", the production of this album was entrusted to Brett Caldas-Lima (known for his work with Ayreon, Devin Townsend, Megadeth, Adagio, Hypno5e...) in order to create a true identity for these jewels of acoustic rock music, reminding the golden age of MTV Unplugged! And much more !

The second album planned for 2024 is a real bomb of classy but angry Hard Rock'n'Roll!

HighWay is definitively back in the game!

Let the boys take you for a rockin' ride and get ready for a giant dose of fun, Rock 'N' Roll and amazing live performance!
