

LEAVE ME ALONE

Music and lyrics: B.CHAMBERT

Baby, the first time I laid my eyes on you
I shadowed you girl down the avenue.
Never imagined that I would regret
The pleasure I felt with that first caress.
You can't live without me, I cannot live with you.
You restrain me to tear your heart in two.

Chorus:

So try, try, try to forget me.
Oh no, no, no. I don't wanna see you cry.
Don't try, try, try, try to kill me
I gave you what you wanted, so now just leave me alone!

I ain't forgetting all the good times we shared
But you forgot 'em all.
Why did you waste this thing baby?
This thing that we called love!
You're always on my back, you don't let me breathe,
Now you're paying the price while I forgive.

Chorus

So try, try, try to forget me.
Oh no, no, no. I don't wanna hear you cry.
Don't try, try, try, try to kill me
I gave you what you wanted, so now just leave me alone!

Oh honey please just let me be, the lonely man I used to be, I can't stand you no
more...

You're mean n' dirty, like a bumblebee, so stay behind the door!

Guitar Solo

You can't live without me, I cannot live with you.
Baby wear your clothes... Out of my view!

Chorus

So try, try, try to forget me.
Oh no, no, no. I don't wanna see you cry.
Don't try, try, try, try to kill me
I gave you what you wanted, so now just leave me...now just leave me alone! Leave
me alone!

I gave you what you wanted, I gave you what I had, now baby just leave me alone!
Can't even see my friends, can't even get home late. Wanna be on my own!
Can't go out without you watching my every move. Wanna be on my own!
Now! Just leave me alone!
