

BROTHERHOOD

Lyrics and Music : B. Chambert

*Oh brotherhood!
Raise a glass, sing the blues
Oh brotherhood!
For your legacy, we thank you*

You worked so hard, spent a life on a highway
Hey men, you make us feel alright
Raised on rock, you were born to entertain me
Hey men, you make us feel alive

A youth injection, musical combustion
Hey men, you've showed us the way
Decibels fuel, to kingdom of hell
In our heads, each night and day

I like it
I need it
I feel it!

**Oh brotherhood,
Hell of a party 'tween some freaks
You gave us trust, we will miss you for a hundred years**

**Oh brotherhood,
A jam in heaven for you "dream team"
We'll play so loud, we will make your legacy live
Oh Brotherhood!**

With couple of songs n' smoldering melodies
Hey men, you were one-offs
You shaped our life, built most of our memories
Hey men, we can do that stuff!

White paper phobia? Stave anorexia?
Dazzled by your excellence
Feeding from the past, to create our own story
Rejuvenating experience

I like it
I need it
I feel it!

**Oh brotherhood,
Hell of a party 'tween some freaks
You gave us trust, we will miss you for a hundred years**

**Oh brotherhood,
A jam in heaven for you "dream team"
We'll play so loud, we will make your legacy live
Oh Brotherhood!**

Oh Oh Oh Brotherhood
Skies on fire, running truth
Oh Oh Oh
This song's to remember, the Rock'n'Roll fever
