

THE DANGER ZONE

Lyrics: Benjamin Chambert / Music : Benjamin Chambert & Samuel Marechal

Sweet little girl, runnin' wild n' free
Oh lady luck, kinda backstage queen
But don't you know, can't get me under control

Sweet heart o' mine, burning fantasy
Snake of desire, crawling up your hills
Try as you might, you can't stop the snakebite!

Don't follow my tattoos...
If you want to remain sane
Harder than a bamboo...I ain't really a saint
Deadlier than fugu...but tastier as well...
Never change the rules....Girl you have to accept...
That bad boys never change!

Time is flyin', I still play it loud
Don't waste my time, baby all around
There's narrow space, my special face to face place
You'd better watch out for the Danger Zone
My Danger Zone

Outta spotlights, maverick IQ feel
What I do excites you? Makes you dream?
But don't you know, I've got a stone cold soul!

Don't follow my tattoos...
If you want to remain sane
Harder than a bamboo...I ain't really a saint

*Deadlier than fugu...but tastier as well...
Never change the rules....Girl you have to accept...
That bad boys never change!*

*Time is flyin', I still play it loud
Don't waste my time, baby in the crowd
Lovely sparklin' eyes, pure as angel thighs
You know you'll be hurted into the Danger Zone
My Danger Zone
This Danger Zone...called Rock'n'Roll*

*Baby you thought I could change...
Now I don't think of revenge
Do you remember that I warned you?
Yeah just love to interchange...*

*I can't be a mid-rock'n'rollin' man!
Oh I hope you understand...
If you really want me, want the full package!
Oh baby, this is my brand...*

**Welcome to the Danger Zone...Danger Zone called
Rock'n'Roll
Take risks, don't resist... Danger Zone called
Rock'n'Roll
Sex Vortex takes you into a Danger Zone called
Rock'n'Roll
Sucked into a vertigo... Danger Zone called
Rock'n'Roll...**

Guitar Solo

Don't follow my tattoos...
If you want to remain sane
Harder than a bamboo...I ain't really a saint
Deadlier than fugu...but tastier as well...
Never change the rules....Girl you have to accept...
That bad boys never change!

Time is flyin', I still play it loud
Don't waste my time, in this fucking crowd
There's a narrow space, means danger...angel face
You know you'll be hurtled into the Danger Zone
My Danger Zone
This Danger Zone...called Rock'n'Roll!
