

CHEMICAL TRIP

Lyrics: Ben Chambert / Music: Samuel Marechal

A coloured sky, monkeys, spies, flash before my eyes
Marshmallow clouds
Where the fuck am I?

I strut my stuff in this gelatine world
Oh baby it's too...Psychedelicious!

Rainbow eyes, hypnotized
Talk to Coverdale or Mickey Mouse
It's magic...Chemical Trip!
Flyin' carpet, supersonic
Drive me high, asynaptic
It's magic...Chemical Trip!
Timeless land where we're all friends,
Naked girls goin' hand in hand...So sexy!
I don't wanna leave this dream right now,
Oh Mister please...
Gimme just one more pill...

CHEMICAL-TRIP

Superman is back in town, may the force be with me
Capitalists, terrorists, get the hell outta here!

What I prefer is hallucinogenic flowers
Oh baby it's too...Psychedelicious!

Rainbow eyes, hypnotized
Talk to Sangoku or Angus Young
It's magic...Chemical Trip!
Flyin' carpet, so romantic
Drive me to a cosmic harem
It's magic...Chemical Trip!
Timeless land where we're all friends,
Naked girls who love to lick...So sexy!
I don't wanna leave this dream right now,
Oh Mister please...
Gimme just 2 more pills...

CHEMICAL-TRIP

Psychedelicious...isn't it??

Bright red eyes, mesmerized
Nothing's real, live in a lie
But it's magic...Chemical Trip!
I run into "Genie of the lamp", granting a wish you can't
understand
It's magic...Chemical Trip!
Timeless land where we're all friends,
Naked girls hungry for men...So sexy!
I don't wanna leave this dream right now,
Oh Mister please...
Gimme just 3 more pills...
Take me far away from my fears...
