

## ONE

*Music & Lyrics: B. Chambert*

Outside the window, I see the wind blowin'  
Gettin' away pain, sadness and sorrow  
Filling my heart...touchin' my soul!

I had a belief, I got it all  
But now, I'm sure I was wrong  
Finally heard your call...patience is gold!

Baby I find out emotions  
You make me feel like no-one other  
I finally find my way...the way to you!

Baby can't you see it through my eyes  
Something that I cannot realize  
A divine light, we're flyin' so high

Inside my window, a cosmic rainbow  
Brings me peace, joy, you, magic angel  
Next to you...Love is true!

A whole new world at the very first sight  
A better man just with you by my side  
You make me smile...honey we've got style!

Nothing but love devotion  
You make me feel like I'm on a mission  
You brought me to life, now my life's only you!

Baby can't you see it through my eyes  
Can you feel this magic carpet ride?  
Livin' it up, we're never go down...  
Like a candle that will never go out  
As the universe, so the soul  
Just gimme your hand, let me be yours

We are One

Nothing but love devotion  
You make me feel like I'm on a mission  
You brought me to life, now my life's only you! Only You!

Baby can't you see it through my eyes  
Can you feel this magic carpet ride?  
Livin' it up, we're never go down...  
Like a candle that will never go out  
As the universe, so the soul  
No words enough...we will be One

We are One - We are Free

Love is all we need...to be together  
Love is we need...to live forever  
Love is all we need...to feel life fever  
Love is all we need...to thrill forever

We are One
